

Load Chart

The Summit panels integrated, high strength ribbing allows for a higher distributed, uniformly load capacity. The following chart indicates the suggested pounds per square foot load capacity for residential or agricultural structures. Consult your local building codes for exact requirements.

29 Gauge	3 span	18"	21"	24"	27"	30"	33"	36"	39"	42"	45"	48"
Residential		92	79	69	61	55	50	44	34	27	22	18
Farm Building	<small>low human occupancy</small>	115	99	86	76	69	63	58	45	36	29	24

Kolorit® Paints

DuraFlex is a custom hybrid silicone polyester ceramic system designed for residential, industrial, commercial and agricultural applications. DuraFlex leads the industry with the highest quality and longest life of any SMP paint system on the market.

The advanced DuraFlex technology is formulated with a proprietary super durable resin which provides superior resistance to chalking and fading, especially in extreme heat and UV exposure locations. DuraFlex paints exceptional coating hardness, flex ratio and abrasion resistance has been proven to out perform other finishes in the harshest of climates.

DuraFlex formulations, with Cool Roof ceramic pigments, meet minimum solar reflectance requirements for Energy Star approval criteria. DuraFlex paint provides a new level of Long Term Exterior performance for building product applications with the best warranty in the business.

All colours shown are representative only; colours may vary. Contact your dealer or Steel Tile Co. for a true colour match sample. Colours subject to change without notice.

DuraFlex Colour Choices

Accessories

A complete selection of colour-matched accessories made from 26 gauge steel is available from Steel Tile to accent any roof. These include: ridge caps, valley flashing, gable flashing, wall flashing, eaves trim, chimney and skylight flashing, pipe flashing, closure material, and powder-coated, colour-matching fasteners.

The stiffest and strongest panel on the market... period.

Steel Tile Scales New Heights in Agricultural and Commercial Panels

The new standard for metal panels has arrived!

Steel Tile is totally committed to improving their products and developing new ones to suit your needs. We are proud to introduce the new Summit panel. For years, consumers have been limited to using the same old dull panels for their agriculture or commercial structures. The Summit panel changes that by incorporating the latest metal forming technology with top quality materials to create a crisp distinctive look that meets your long term performance needs. Affordability, strength, style and durability; you asked for it, and the Summit panel delivers. No other panel comes close. The Summit panel is taking the industry to a higher level - *It's simply the best!*

Wish List

- ✓ Strength & Durability
- ✓ Invisible Overlap
- ✓ Style & Flexibility
- ✓ Economically Priced
- ✓ Best Paint Finish
- ✓ Crisp Clean Profile
- ✓ High Quality Steel

Perfect for exterior walls or atop any building structure

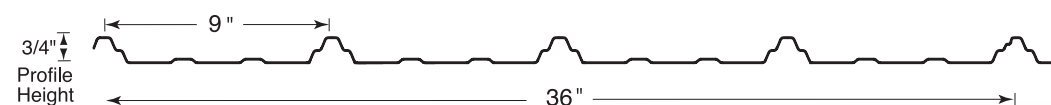

Every Steel Tile product exceeds CSSBI steel quality standards

Versatile, energy efficient

The Summit is the most versatile panel ever produced for continuous wall or roofing applications. Originally manufactured for agricultural and post-frame construction, the Summit is fast becoming a preferred residential favourite for its solar reflective energy savings, dramatic stylish appearance and affordability.

SUMMIT

Invisible overlap & water tight seal

Find it, if you can. The Summit panel is engineered to blend from one panel to another with a virtually seamless appearance. An anti-siphon groove has been incorporated into the design to protect against unwanted water infiltration.

Galvalume steel substrate

Steel Tile's solid reputation for quality and service continues with the Summit panel. Manufactured from 29 gauge full hard Galvalume steel substrate for exceptional durability, corrosion resistance and hassle-free long term performance.

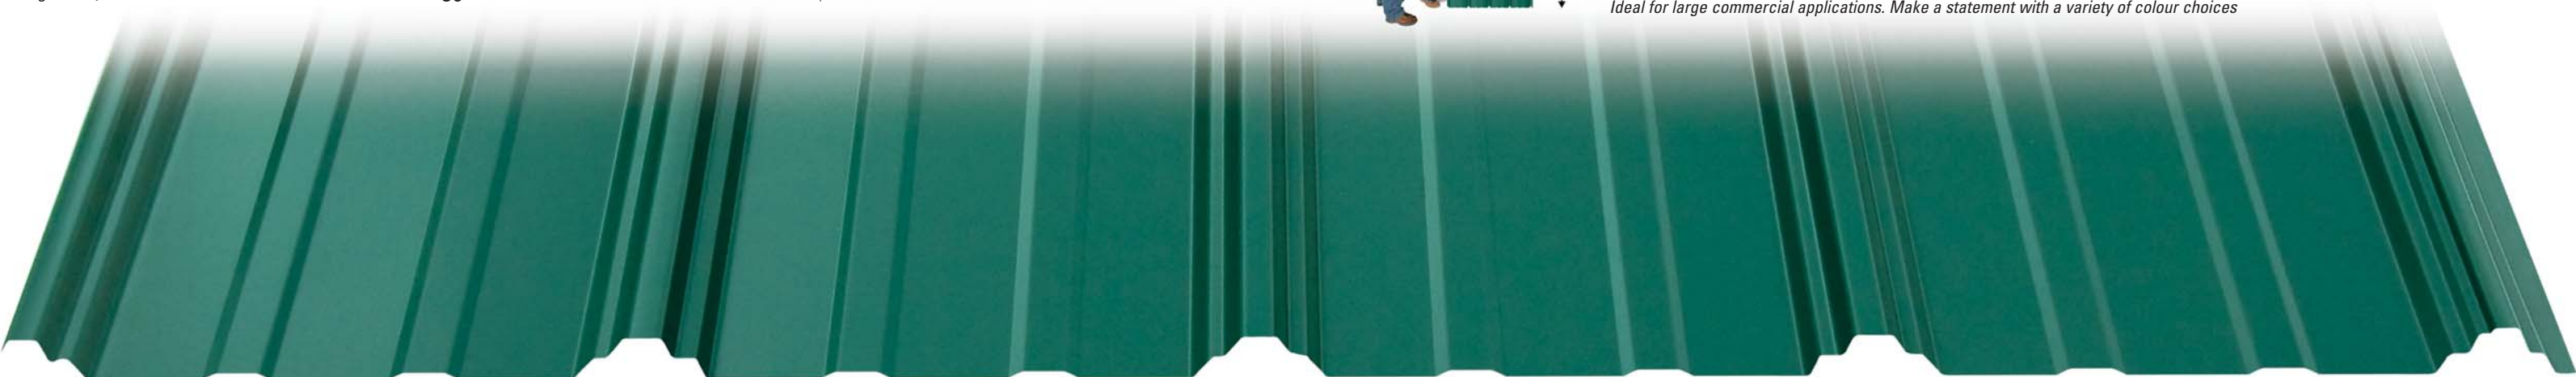

Custom Cut Your Panels Up To **40 ft.**

Warranty

Steel Tile roofing systems are renowned for their durability, fade resistance and performance. The Summit panel is no exception, and is backed by our industry leading 40 year warranty.

Ideal for large commercial applications. Make a statement with a variety of colour choices

Each additional bend on the main rib combine to make the Summit the stiffest and strongest wall or roofing panel
